

ASTM E84 Burning Characteristics

Florida Tile is pleased to report that all porcelain tiles produced in Lawrenceburg, KY are Class A building materials as described in ASTM E84 - Standard Test Method for Surface Burning Characteristics of Building Materials. This is due to the flame spread rating of (0) and smoke-developed rating of (0) falling within the ranges of a Class A material. Other building codes refer to this as a Type I material in accordance with NFPA 255.

Please feel free to contact me if you have any additional questions.

Sincerely,

Devin Williams
