# TIDES HDP High Definition Porcelain

Florida Tile's Tides<sup>HDP</sup> is a stylized interpretation of vein cut stone — specifically a linear cut Travertine or Limestone known as "Georgette". It is a stunning linear play of tone-on-tone colors that creates a contemporary aesthetic.

Using Florida Tile's HDP-High Definition Porcelain technology, we not only reproduce this stone look, but we are able to let our imaginations go wild with bold color combinations that can't be found in nature. From cool blues to steel gray and dark brown, we created contemporary colors that can be specified in any commercial space. Each color has a unique tonal blend within

its veining to add interest and depth, and pairs beautifully with other design finishes.

This glazed porcelain floor and wall tile is available in pressed 12x24 with a 3x24 bullnose for each color. We have also added a unique, patterned M12 mosaic that rotates each chip 90 degrees to create a wonderful checkerboard pattern. With the exception of select trim and decorative pieces, this product line is Made in the USA of 40% pre-consumer recycled content, is GREENGUARD® Certified and Porcelain Tile Certified, and meets the DCOF AcuTest requirements to be installed in wet areas.

## Color Variation

### V2 Slight Variation

Clearly distinguishable differences in texture and/or pattern with similar colors.

Color reproductions in this printed piece may vary from actual tile colors.  
Final selection should be made from actual tile samples.

Color, texture, and finish variations may occur due to the nature of the product.
