High Definition Porcelain™

Glazed Porcelain Floor & Wall Tile

TIDES HDP

High Definition Porcelain

BY floridatile

Shown: 28110 12x24 Sea Salt

Florida Tile's Tides^{HDP} is a stylized interpretation of vein cut stone. Specifically a linear cut Travertine or Limestone known as "Georgette". This look in its natural form is a stunning linear play of tone on tone colors that create this contemporary look.

Using Florida Tile's HDP-High Definition Porcelain technology however, we not only reproduce this stone look, but we are able to let our imaginations go wild with bold color combinations that can't be found in nature. From cool Blues to Steel Gray and Dark Brown, we created contemporary colors that can be specified in any commercial space. Each color has a unique blend of complimentary colors within its veining to add interest and depth, as well as pair beautifully with other design finishes.

This glazed porcelain floor and wall tile is available in pressed 12x24 with a 3x24 bullnose for each color. We have also added a unique patterned M12 mosaic that rotates each chip 90 degrees, to create a wonderful checkerboard pattern. With the exception of select trim and decorative pieces, this product line is Made in the USA of 40% pre-consumer recycled content, is GREENGUARD® Certified and Porcelain Tile Certified, and meets the new DCOF AcuTest requirements to be installed in wet areas.
