Maltese^{DP} is a beautiful floor and wall collection by Florida Tile. Inspired by a traditional limestone look, with small characteristic pits and slight veining but with our own unique twist. Using Florida Tile's proprietary DP-Digital Printing technology we are able to create a superior natural stone look with the high shade variation and graphic resolution far beyond previous applications.

With a nod to the modernist style of mid-century American Designers like Philip Johnson and Charles Eames, the minimalistic yet warm aesthetics of the Maltese^{DP} make it the perfect backdrop for the style conscious. A versatile line, at home in a midwestern suburb, bank lobby, or boutique hotel the elegant look of limestone coordinates so well with any style.

Earthy colors Porto Cream and Roman Gray are rendered in the smooth natural finish of these porcelain floor and ceramic wall tiles. Decorative accents include an 25 piece mosaic and bullnose.

With the exception of select trim, decorative, and ceramic pieces, this product line is Made in the USA of 40% pre-consumer recycled content, is GREENGUARD[®] and Porcelain Tile Certified, and meets the DCOF AcuTest[®] requirements to be installed in wet areas.
