## DISTILLERY HDP High Definition Porcelain™

BY [floridatile](#)

From the handmade charred White Oak barrels to the towering racks of the decades old rick-houses comes the inspiration for Florida Tile's Distillery<sup>HDP</sup> wood collection. Like the smooth soft finish of a 20-year-old small batch bourbon, it creates a mood of cool sophistication. The warmth of the natural oak lives on through the centuries with the strength and durability of the harvested planks. Combined with a spirit that is simple, clean, and modern; these elements work together as one tangible unit.

Starting with a graphic almost completely devoid of knots, the concept was born. A wide-open pattern, linear but with some contrast in variation, became a contemporary vision. Distillery<sup>HDP</sup> is the future of wood look porcelain. The surface is a natural matte finish with a delicate punch and minimal pitting while featuring a mild texture to compliment the grain. Pressed in an 8x48 format, Distillery<sup>HDP</sup> brings the large-scale concept up-to-date with natural wood planks in the market.

The color palette is evolving as well, with three bold shades of grey, from warm to cool to dark – Spirit, Barley, and Proof, the target is thoroughly modern. Even the more traditional tones of light and dark brown – Wheat and Malt, are given the slightest flair to work within the line. A unique large format hexagon patterned twist mosaic provides an interesting decorative highlight.

Distillery<sup>HDP</sup> glazed porcelain floor and wall tile is appropriate for all residential and commercial wall, countertop and backsplash applications, all residential and most commercial floor applications. It is GREENGUARD® and Porcelain Tile certified and meets the DCOF AcuTest requirements to be installed in wet areas.

## Typical Uses

Distillery<sup>HDP</sup> glazed porcelain floor and wall tile is appropriate for all residential and commercial wall, countertop and backsplash applications, all residential and most commercial floor applications.

Notice: Not all flooring products are suitable for wet areas, specialized applications or commercial use. Please refer to the American National Standard Specifications for Ceramic Tile (ANSI A137.1) for ceramic, stone and glass installation for specific usage and installation information.

This Florida Tile product will contribute to USGBC LEED points and the ANSI approved NAHB Green Building Points.

Properties	ASTM	ANSI	Results <sup>1</sup>
DCOF AcuTest <sup>2</sup>	A137.1	≥0.42	Pass
Glaze Hardness	Mohs Scale	N/A	7 Mohs
Break Strength	C-648	250 lbf	550 lbf avg
Water Absorption	C-373	≤0.5%	≤0.5%

<sup>1</sup> These tests are performed by a 3rd party testing lab using industry standard equipment and techniques. Values are offered in good faith as being accurate and typical of normal production. Due to the natural variation of raw materials and manufacturing processes, the values of the purchased product for any particular installation may vary.

<sup>2</sup> ANSI A137.1 standard, ceramic tiles selected for level interior spaces expected to be walked upon when wet must have a minimum wet DCOF AcuTest value of 0.42.

Field Tile Nominal Size <sup>1</sup>	Metric (cm)	Pcs./Sq Ft <sup>2</sup>	Thickness <sup>3</sup>
8" x 48"	20 x 121	.375	10.5mm

<sup>1</sup> These values may vary from lot to lot.

<sup>2</sup> These values are based on actual sizes including the grout joint.

<sup>3</sup> May not apply to textured surfaces or tiles with uneven back patterns.

## Color Variations

Color reproductions in this printed piece may vary from actual tile colors. Final selection should be made from actual tile samples.

### V2 = Slight Variation

Clearly distinguishable differences in texture and/or pattern with similar colors.
