The Edge collection from Florida Tile fuses the look of stone and cement into an extraordinarily resistant product, able to tolerate the most demanding applications. Contemporary in concept, Edge is produced using proprietary Dual Tech technology to obtain extremely durable through body porcelain floor and wall tile. Edge coordinates well with our popular Time 2.0 line and is well suited for projects of the heaviest commercial traffic such as airports and shopping malls.

Rectified field tiles are available in a variety of sizes and finishes: 24x24 Natural; 12x24 Natural, Polished, and Touch; 3.75x12

Natural and Polished. All field tile, bullnose, and mosaics are available in five colors: Snow, Cream, Silver, Taupe, and Carbon. The three finishes: Natural, Polished, and Touch (a slightly honed texture), make this line extremely versatile for interior or exterior applications.

Edge through body porcelain floor and wall tile is appropriate for residential and commercial wall, countertop, backsplash, and most floor applications. It is GREENGUARD® and Porcelain Tile certified and the natural finish meets DCOF AcuTest® requirements to be installed in wet areas.
