Natural high density, all-weather performance. Florida Tile Metropolitan Quarry has the distinction of being an unglazed ceramic quarry tile, made in the United States, which can be installed inside or out, is frostproof and maintains high-quality style, and durability. Color throughout the body of the tile supports wearability. Wearing, over time, actually produces a natural patina and deeper character. Where performance and style is required, Florida Tile Metropolitan Quarry is the right choice. The modular sizes and blendable colors of this indoor/outdoor unglazed quarry tile support an unlimited palette of pattern combinations.

Typical Uses
Metropolitan Quarry ceramic floor and wall tile is appropriate for all interior and exterior wall, countertop and backsplash applications.

Notice: Not all flooring products are suitable for wet areas, specialized applications or commercial use. Please refer to the American National Standard Specifications for Ceramic Tile (ANSI® A137.1) for ceramic, stone and glass installation for specific usage and installation information.

This Florida Tile product will contribute to USGBC® LEED points and the ANSI® approved NAHB® Green Building Points.

1 These values may vary from lot to lot.
2 These values are based on actual sizes including the grout joint.
3 May not apply to textured surfaces or tiles with uneven back patterns such as mesh mounted mosaics.

Color reproductions in this printed piece may vary from actual tile colors. Final selection should be made from actual tile samples.

Color, texture, and finish variations may occur due to the nature of the product.
